WILL BE A MENACE TO THE AMERICAN LABORER

Danger to Our Industries From Absorption of Nine Million Quick Witted Eilipinos.

The prospect that nine millions of sa to offer little bindrance. Filipinos may become dangerous rivals sequired archipelago in the far East with their hands, in such ways resembling the Japanese.

wall, making absolute free trade between our ports and her own, a large part of the manufactured goods now made in the United States would soon be produced over there, while at the same time the accession of cheap Japanese labor within our tariff boundary would create an industrial revolution gres perhaps, is to be apprehended the United States. It has been argued here. The same danger, in a less defrom the annexation of the Philippines, unless the revolutionary doctrine is austained that the Constitution does not apply to the entire domain of the Republic, but merely to the States composing the Union.

Following the annexation of the Philthose felands of American capital, which will be employed partly in the production of sugar and tobacco, affecting in some degree our own intereats in the raising of those staples, but partly also in manufacturing industries. At first such industries will be intended only to supply local demand in the archipelago, but as the aptitude of the natives for pursuits of this kind is developed, and the advantages of cheap labor are realized, the business of man-States will begin to grow. Once started

By Hon. Francis G. Newlands in Mew York (it may advance with giant strides, transpacific freight rates being so low

Thus it appears that while under the of our own in the industrial field is a conditions suggested, the sugar and new threat to the prosperity of our tobacco of the Philippines will compete wage sarners. The natives of our newly with ours in our own markets, we shall have no compensating opportunity for possess a high degree of intelligence, the sale of our products in the archialertness and industrial adaptability. pelago. Probably, instead of buying They are quick with their heads and our manufactures, the Filipinos will our manufactures, the Filipinos will ship theirs to us, the balance of trade turning largely against us. Such a this country, and put inside our tariff prospect is far from pleasant, and we ness as bearing upon the wisdom of the policy of absorption, which is now so widely advocated. From our viewpoint today we can hardly measure the possible extent of this industrial competition or prescribe its limits.

Another point to be considered is that the Filipinos will have access to that being accustomed to a tropical climate, they will not want to come here; but I imagine that in this regard they will yield to the persuasion of epeculative American capital, just as the Chinese did prior to the Exclusion act, when their labor was sought by ippines will come a great influx into | Pacific railroad contractors, and just as tion of Sandwich Island planters. Bealdes, it must be considered that a large part of this country has a climate safficiently warm to be very satisfactory to the Filipinos, who would not suffer from a change of residence to California, New Mexico, Arizona or the Southern States.

American labor is now on stilts, one might eay, as compared with the rest of the world. It has been able to mainufacturing for export to the United tain itself at its present elevation by
